Product overview
Service your HydraMaster CDS 4.8 SV with the clutch kit specified for the listed Chevy V6 application. HydraMaster’s published parts catalog identifies 000-078-744 as the V8 clutch kit and lists the V6 version separately as 000-078-746. The CDS uses the host vehicle’s power to operate the truckmount cleaning system. Selecting the correct clutch kit requires matching the CDS configuration and vehicle application.

Confirm compatibility before ordering

- Match the required part number to 000-078-744.
- Provide your CDS model and serial number, vehicle model year, engine information and VIN to your HydraMaster distributor.
- Confirm any applicable production changes or part-number supersessions.
- Verify the current kit contents and whether any additional installation parts are required.

The catalog designation is CH V6 2021. Compatibility with other years or configurations requires confirmation. The V6 kit has a different part number; interchangeability has not been established.

Frequently asked questions
What is included in this kit?

HydraMaster 000-078-744 Clutch Kit â€" CDS 4.8 SV Chevy V8, 2021

A verified bill of materials for 000-078-746 was not available in the sources reviewed. Confirm the included clutch, brackets, hardware and any other components with your distributor before ordering.

Is this the same as clutch kit 000-078-744?

HydraMaster lists 000-078-746 for the V6 application and 000-078-744 for the V8 application. Order by the confirmed part number for your installation.

Does the manual drawing show the exact V6 kit?

No. The linked drawing is a related Chevy 2021 clutch assembly illustration labeled 000-078-744 Rev. C. It is provided for reference and does not establish the contents or fitment of 000-078-746.

Is installation included?

This page describes the clutch kit. Confirm labor, installation requirements and any additional parts separately with your service provider.
