Model Number: SbmR3-16M

Aluminum Blind Rivets Bulk (6-4) 3/16in Diameter x 1/4in Grip (BCP474) [SbmR3-16M]

Manufacturer: Steambrite MFG

Aluminum Blind Rivets Bulk (#6-4) 3/16" Diameter x 1/4" Grip (BCP474) [SbmR3-16M]
Description
Blind rivets are tubular designed with a mandrel through the center. The rivet assembly is inserted into a hole drilled through the parts to be joined and a specially designed tool is used to draw the mandrel into the rivet. This expands the blind end of the rivet and then the mandrel snaps off. Unlike solid rivets, blind rivets can be inserted and fully installed in a joint from only one side of a part or structure, "blind" to the opposite side. Save 50% over purchasing in a plastic container @ $.11 each. Shipped in bulk container only $.06 each
