Carpet Protector

TriPlex

Tomorrow's Technology Today™

Specially designed and tested safe for today's carpet. Designed to provide superior Anti-Stain and Anti-Resoiling property. When properly applied carpets stay clean longer, it reduces carpet fiber abrasion, and prolongs the life and beauty of the carpet.

Directions:

- * Test fabric for color stability before use.
- * Apply product using a suitable, electric or pump style sprayer with a fan tip no smaller than an 04
- * Spray evenly until carpet is slightly damp to the touch.
- * May be applied to wet or dry, clean carpet.
- * After application allow carpet or fabric to dry before use
- * Dilution may be varied to accommodate needed dry times as long as the coverage rates below are followed

Coverage Per Gallon

Topical Spray: Dilute 1 to 9 with water. Apply at a rate of 600 sq. ft. per diluted gallon
If carpet is stiff from over application, foot traffic and vacuuming will soften fibers. This is normal due to polymer based technology.

Afford 200 demonstrates superior anti-stain properties
