

# Clean Anywhere with Gekko

# Gekko SX-7

The Gekko tools clean where others can't: corners, edges, shower walls, countertops and even under toe kicks. The Gekko wand attaches to multiple heads to provide maximum cleaning flexibility. It can be used with any truckmount or high-pressure portable extractor to give outstanding results on tile, grout, concrete and stone jobs.

AR51G

## Gekko Wand AR51A

The 1.5" Gekko wand is the heart of the Gekko system. This wand attaches to any of the Gekko or SX-7 tools using a threaded collar.

## SX-7 AR51G

The new design for the SX-7 expands on the versatility of the original by combining two tools into one. Instead of needing a tool for cleaning countertops and showers, and then another for cleaning floors, the SX-7 combines both a handheld and an upright tool into one. The SX-7's teardrop shape and front jet allows it to clean closer to walls and corners than any other tool on the market.

## 14" GEKKO SQUEEGEE HEAD AR51E

The squeegee head is ideal for surfaces that need maximum water removal. Order AR51V Wet Vacuum Tool to get a head without the jets for flood extraction.

## 14" GEKKO BRUSH HEAD AR51H

The brush head is ideal for surfaces that need extra brush agitation. The spray bar has been removed and the jets screw directly into the head, eliminating poor performance caused by clogged openings and reducing maintenance expenses.

## 14" GEKKO WET VACUUM TOOL AX10X

Prevent premature age of your carpet wand by using a tool designed specifically for water extraction on hard surfaces. This tool consists of an AR51V Gekko wet vacuum head and an AR51X Gekko wet vacuum wand.

## 4" GEKKO HAND TOOL AR53

This handheld version of the AR51D is used for cleaning walls, countertops or other detail work.

## 4" GEKKO EDGE, CORNER AND COVING HEAD AR51C

Cleans corners, edges and coving with one easy stroke. The included coving cover allows the user to clean just the edges if desired.

## 4" GEKKO HEAD AR51D

The single 1502 jet makes this a must for scouring stubborn grout lines and tight spots.

## HIDE-A-HOSE ASSEMBLY AH180

This 10' long hide-a-hose assembly is designed to be used with the AR51G when not using the Gekko wand. The solution hose is run through the inside of the vacuum hose keeping it out of the way and making it easier to work in tight spots.
