

Powr-Extractor Brush

- 17 inch cleaning width
- 1300 RPM Rotational cleaning
- Five brass or stainless steel spray jets
- Solenoid switch solution control
- All stainless steel chassis

The Powr-Extractor Brush cleans twice as fast as the wand method, quickly breaking up and penetrating deep-rooted dirt down to the base of the carpet fibers. The PEB takes the back pain out of carpet cleaning, making it easier on the operator to clean more carpet in less time! All models ship with 25 ft. of heavy-duty vacuum hose and power cord. The PEB-H is designed for use with our heated extractors. It can handle the heat and high pressure up to 190° and 400 p.s.i. For maximum pressure requirements, the PEB-TM-NS will handle truckmount power to 400 p.s.i.! Select the PEB unit for your cleaning needs.
