

## The WINCO Edge

WINCO knows power. The first WINCO PTO generator was developed over sixty years ago in 1942. When you purchase a WINCO generator you are obtaining a product that has stood the test of time, is durable, reliable, and backed by WINCO, the leader in PTO power.

WINCO has maintained a reputation in the generator industry of delivering quality and value for eighty years, an achievement that shows dedication to and confidence in the products we offer. We continue to move forward in enhancing our generators to meet the changing demands of customers and industry expectations, while careful to maintain quality and assure value.

# Prepare for Take Off

## With a Power Take Off Generator From

# WINCO®

# Leader in PTO Power

**A Name You Can Trust:** WINCO has been supplying Power Take-off (PTO) generators to large livestock producers, ranchers, and hobby farmers for over sixty years. We have become a well-known and trusted name in the PTO generator business.

**Accessories:** All of our PTO generators come with the option of a trailer kit and/or PTO shaft, which are designed to fit the particular generator required and make transportation easy. Also available is a three-point hitch kit for our 11kW and 15kW units. PTO generators may also be mounted to a permanent foundation to be used for standby power with a manual transfer switch.

**Large Selection:** Look no further than WINCO for the largest selection of PTO models in the industry. Our product line of PTO generators is complete with single-phase generators ranging in output from 11kW-150kW and three-phase generators from 40kW-145kW.

### PTO Trailer Kit:

A trailer kit may be ordered as an option, offering a tow-behind method of transporting power where you need it most.

### Three-Point Hitch Kit:

Our W11PTOS & W15PTOS units can be easily maneuvered behind the tractor using our three-point hitch kit which includes the PTO shaft. These kits are shipped in a separate package and assembled on site.

Single Phase Models	kW	Amps*	Gen Speed RPM	Tractor HP Req'd
W11PTOS	11	45	3600	22
W15PTOS	15	60	3600	30
25PTOC-3	25	104	3600	50
35PTOC-3	35	146	1800	70
50PTOC-3	50	208	1800	100
W75FPTOS	75	312	1800	150
W100FPTOS	100	416	1800	200
W150FPTOS	150	645	1800	300

-3 = 120/240V

\*Amperage rating at 240 volts

Three Phase Models	kW	Amps* per phase	Gen Speed RPM	Tractor HP Req'd
40PTOC-4	40	111	1800	80
45PTOC-17	45	108	1800	90
75FPTOC-4	75	208	1800	150
75FPTOC-17	75	180	1800	150
W105FPTOT-4	105	364	1800	210
W105FPTOT-17	105	316	1800	210
W105FPTOT-18	105	158	1800	210
W145FPTOT-4	145	503	1800	290
W145FPTOT-17	145	436	1800	290
W145FPTOT-18	145	218	1800	290

-4 = 120/208V, -17 = 120/240V, -18 = 277/480V

\*Amperage rating at highest phase voltage

### Feature:

### Benefit:

- 100% copper windings      Power efficiency/reliability
- Protective rodent screen      Generator windings protected
- Helical gears      Smoother, quieter operation
- Full-power receptacles      Provides for full-rated output
- Main-line circuit breaker      Protects generator from overloads
