

POWER CORDS for the **DRITEC DESICCANT DEHUMIDIFIER**

The DriTec Desiccant Dehumidifier is equipped with a twist-lock receptacle into which the power cord is fastened. To attach a cord using the twist-lock: insert, then push and turn clockwise. Reverse the procedure to detach.

One standard equipment cord is included with the DriTec. Two accessory cords are also available.

20-foot Cord with 4-Prong Plug *(Standard Equipment)*

The DriTec comes equipped with a 20-foot power cord. It has a 4-prong plug that fits all clothes dryer 230-volt outlets in new construction. The unit is UL listed in accordance with national electrical code standards, which require the 4-prong plug.

20-foot Cord with 3-Prong Plug *(Optional)*

The optional 3-Prong Adapter Cord manufactured by Dri-Eaz Products may be used to provide power to the DriTec from 3-prong 230V outlets, which were standard in most construction until 1997. Use it instead of the 4-prong cord provided with the unit. Remove the 4-prong cord at the twist-lock, and fasten the 3-prong in its place.

50-foot Extension Cord for DriTec *(Optional)*

The Extension Cord, designed for use only with the DriTec Dehumidifier, adds 50 feet to the unit's cord length. It is provided with a twist-lock at each end. Attach the female end of the extension cord to the DriTec, and the male end to either the 4-prong cord supplied with the unit, or the 3-prong adapter cord. The extension cord is UL Listed.

Do not plug one extension cord into another. Do not exceed 70 feet in total cord length.

SAFETY PRECAUTIONS

- **Misuse can result in fire or injury by electrical shock.**
- **Inspect thoroughly before each use. Do not use if damaged.**
- **Do not use when wet. Keep cord and connections out of standing water.**
- **Avoid overheating. Uncoil cord; do not cover with any material.**
- **Prevent damage to cord. Do not walk on cord, or drag or place objects over cord.**
- **Prevent trip hazards. Keep cords to the side or away from areas where people walk.**
- **Use the extension cord ONLY with the DriTec Desiccant Dehumidifier.**
- **Do not plug one extension cord into another.**
