

**HIGH CAPACITY,  
LOW TEMPERATURE  
DEHUMIDIFIERS FOR  
WATER DAMAGE  
RESTORATION**

**BD80  
DEHUMIDIFIER**

Ebac manufactures World Class Dehumidification Equipment for the professional water damage and carpet specialist. We design them, make them, market them, and back them. It doesn't get any simpler than that!

**Applications:**

The Ebac BD80 Professional Dehumidifier is the ideal unit for commercial and residential work. Its compact size permits one-man operation, yet it has the capacity to handle several room-size areas at a time. Best of all, it's affordably priced within the budget of most restoration specialists.

**Features:**

- 1) Simplicity of operation.  
Standard 115 v. plugs in anywhere.
- 2) Rugged wheels and integral handle for mobility.
- 3) Hour meter.
- 4) Extra long power cord.
- 5) Heavy duty steel chassis.  
Powder coated for durability.
- 6) Ebac's "HOT GAS" defrosting feature automatically eliminates frost build-up providing effective operation at low ambient temperatures.
- 7) Ebac's 1 year limited warranty.

**Specifications:**

Model: BD80	Volts: 115
Compressor:	Amps: 7
High Efficiency Rotary	Capacity: 15 Gallons at Saturation
BTU/Hr: 6625	Height: 34", Width: 17", Depth: 26"
Refrigerant: R-22	CFM: 360

**Performance:**

The Ebac BD80 Building Dryer and Dehumidifier is a rugged, yet mobile piece of equipment that will operate under extreme conditions and pull large amounts of moisture from the air. Whenever there is a need for fast, dependable, energy-efficient drying, Ebac can provide the answer.

**Operation:**

The effective answer to water removal is a refrigeration-type dehumidifier. Warm moist air is drawn by a fan across a cold coil which causes the water vapor to condense onto the coil and drop into a container or tray. The cold air is then passed over a heat exchanger where it is warmed before being passed back into the surrounding area.
