

**A FULL RANGE OF
HIGH CAPACITY,
LOW TEMPERATURE
DEHUMIDIFIERS
FOR INDUSTRY,
INSTITUTIONS,
RENTALS
AND HOMES.**

**CD 60
DEHUMIDIFIER**

Ebac manufactures World Class dehumidification equipment to provide the humidity control you require. Use the appropriate Ebac unit to:

- 1) prevent condensation from forming on windows, walls and ceilings,
- 2) stop mold and mildew and,
- 3) eliminate rust and corrosion.

Applications:

The Ebac CD60 Commercial/Industrial Dehumidifier was designed to provide energy efficient humidity control in a wide range of applications including offices, laboratories, apartments, storage areas, restaurants, bars, museums, locker rooms, computer and telecommunication rooms, and basements. It is a quiet, high efficiency, high capacity unit designed to suit your HVAC needs.

Features:

- 1) Rugged, epoxy powder-coated steel chassis and housing.
- 2) Hours run meter.
- 3) Simplicity of installation and operation with standard 115V plug and extra long power cord.

Options:

- 1) Rugged trolley system for portability
- 2) Automatic condensation pump (20 ft. vertical lift)

Specifications:

Model: CD60

Power Supply: 115V/60HZ/1PH

Compressor:

Amperage: 7 amps (maximum)

High Efficiency Rotary

Height: 17", Width: 20 1/4", Depth: 14"

BTUHR: 6625

Weight: 80 lbs.

Refrigerant: R-22

Capacity: 51 lbs./day @ 80/60%

Airflow: 360 CFM

Operation:

The effective answer to excessive humidity is a refrigeration-type dehumidifier. Warm moist air is drawn by a fan across a cold coil which causes the water vapor to condense onto the coil and drop into a container or tray. The cold air is then passed over a heat exchanger where it is warmed before being passed back into the surrounding area. A dehumidifier that has a humidistat which automatically switches it on and off saves energy and expense by maintaining the desired level of humidity with intermittent operation.
