AD850 DEHUMIDIFIER

Applications:

The Ebac AD 850 dehumidifier is an ideal solution for humidity control in a wide variety of applications including offices, apartments, stores, restaurants, bars, salons, museums, storerooms, computer and telecommunications rooms, garages, cellars and animal enclosures. It's also great for spa rooms in homes or hotels/motels.

Features:

- 1) Streamlined, modern design to blend in with different decors and environments.
- 2) Cross-flow blower for quiet operation.
- 3) Built-in humidistat covers the range of 40% to 80% RH.
- 4) Three speed fan motor to adapt to environmental conditions for optimal performances.
- 5) Defrost timer to allow operation in low temperatures, down to 45°F (7°C).
- 6) Two removable washable air filters.

Specifications:

Compressor Type: Rotary
Refrigerant: R-22
Air flow: 277 cfm (max)
Dimensions: Length: 26 3/4"
Height: 27 1/8"
Depth: 11"

Electrical: 115V, 60 Hz
Weight: 100 lbs.
Capacity at 80°F, 60% RH
AD850 87 pints/day (3.6 lbs./hr.)

Operation:

The effective answer to excessive humidity is a refrigeration-type dehumidifier. Warm moist air is drawn by a fan across a cold coil which causes the water vapor to condense onto the coil and drop into a container or tray. The cold air is then passed over a heat exchanger where it is warmed before being passed back into the surrounding area. A dehumidifier that has a humidistat which automatically switches it on and off saves energy and expense by maintaining the desired level of humidity with intermittent operation.
