

**HIGH CAPACITY,
LOW TEMPERATURE
DEHUMIDIFIERS
FOR WATER
DAMAGE
RESTORATION**

**BD150-CR
BUILDING DRYER
AND
DEHUMIDIFIER**

Ebac manufactures World Class Dehumidification Equipment for the professional water damage and carpet specialist. We design them, make them, market them, and back them. It doesn't get any simpler than that!

Applications:

The Ebac BD150-CR Professional Dehumidifier is the ideal unit for commercial and residential work. Its compact size permits one-man operation, yet it has the capacity to handle several room-size areas at a time. Best of all, it's affordably priced within the budget of most restoration specialists.

Features:

- 1) Simplicity of operation. Standard 115 v. plugs in anywhere. Push button start.
- 2) Large wheels and integral handle for mobility.
- 3) Automatic pump-out.
- 4) Hour meter.

Specifications:

Model: BD150-CR	Capacity: 25+ Gallons at Saturation (67 pints @ 80°F/60% RH)
Horsepower: 1	Volts: 115
Refrigerant: R-22	Amps: 13
Fan: 1/2 HP	Height: 36", Width: 24", Depth: 24"
CFM: 650	Weight: 146 lbs.

Performance:

The Ebac BD150-CR Building Dryer and Dehumidifier is a rugged, yet mobile piece of equipment that will operate under extreme conditions and pull large amounts of moisture from the air. In high humidity cases, the Ebac BD150-CR has removed almost 27 gallons of water in a 24-hour period! Whenever there is a need for fast, dependable, energy-efficient drying, Ebac can provide the answer.

Operation:

The effective answer to water removal is a refrigeration-type dehumidifier. Warm moist air is drawn by a fan across a cold coil which causes the water vapor to condense onto the coil and drop into a container or tray. The cold air is then passed over a heat exchanger where it is warmed before being passed back into the surrounding area.
