

**HIGH CAPACITY,
LOW TEMPERATURE
DEHUMIDIFIERS FOR
WATER DAMAGE
RESTORATION**

**KOMPACT
DEHUMIDIFIER**

Ebac manufactures World Class Dehumidification Equipment for the professional water damage and carpet specialist. We design them, make them, market them, and back them. It doesn't get any simpler than that!

Applications:

The Ebac KOMPACT Professional Dehumidifier is the ideal unit for commercial and residential work. Its compact size permits one-man operation, yet it has the capacity to handle several room-size areas at a time. Best of all, it's affordably priced within the budget of most restoration specialists.

Features:

- 1) Washable air filter.
- 2) Rugged wheels and integral handle for mobility.
- 3) Internal condensate pump (20' vertical lift).
- 4) 25' drain hose.
- 5) Hour meter.
- 6) Extra long 16' power cord.
- 7) Heavy duty steel chassis. Powder coated for durability.
- 8) Ebac's "HOT GAS" defrosting feature automatically eliminates frost build-up providing effective operation at low ambient temperatures.

Specifications:

Model: KOMPACT	Volts: 115/60 Hz
Compressor: High Efficiency Rotary	Amps: 7
BTU/HR: 6625	Capacity: 15 Gallons at Saturation
Refrigerant: R-22	Height: 24", Width: 20", Depth: 19"
	CFM: 360
	Weight: 78 lbs.

Performance:

The Ebac KOMPACT Building Dryer and Dehumidifier is a rugged, yet mobile piece of equipment that will operate under extreme conditions and pull large amounts of moisture from the air. Whenever there is a need for fast, dependable, energy-efficient drying, Ebac can provide the answer.

Operation:

The effective answer to water removal is a refrigeration-type dehumidifier. Warm moist air is drawn by a fan across a cold coil which causes the water vapor to condense onto the coil and drop into a container or tray. The cold air is then passed over a heat exchanger where it is warmed before being passed back into the surrounding area.
