

PULLMAN-HOLT

Evacuator Series - Squeegee Vac

The "Evacuator Series" 20-gallon squeegee vacuum, is ergonomically designed to operate with minimal effort. A 30" squeegee assembly is raised and lowered via a conveniently located gear shift style actuator. The polyurethane squeegee blades pick up in both forward and reverse, conform to irregular floor surfaces and can be easily replaced in the field.

Features

- Powerful 2HP motor for fast, superior pick up for just about any kind of dirt, litter, debris, sludge, soot or liquids.
- Noise reduction design and special acoustic materials for quiet operation.
- Exclusive "never-clog" dacron bag provides superior prefiltration.
- Cleaning knob for purging filter, during severe pick-up applications.
- Offset inlet for cyclonic separation of dirt or liquids.
- Tank includes 8" rear wheels, 2.5" front casters, built-in drain with screw cap.
- Squeegee assembly is easily removable for cleaning.
- Includes complete set of tools and convenient hose and cord ties.
