

Our new model E1300 has all the features that professional contractors seek in a portable tank extractor. Constructed with rugged rotational molded polyethylene, the E1300 will shrug off years of hard professional use. Large solution & recovery tanks and a pair of 2-stage vacuum motors deliver the ultimate extraction power and capacity. This economical extractor is ideal for residential or commercial cleaning of large carpeted areas. Comes equipped with 25' of vacuum and solution hose, and a single jet, stainless steel wand with grip handle.

Features:

- Dual vacuum motors provides fast recovery of extraction solution and soil.
- 100psi pump loosens and removes deep down imbedded dirt.
- Rotational mold polyethylene construction - withstands heavy-duty, professional use.
- Waist-high positioned switches and molded handle with built-in cord wrap provides superior ergonomics for operation, transporting and storage.
- Large 10" rear wheels and 3" swivel casters offers excellent maneuverability and stability, particularly when transporting up and down stairs.
- Hinged tanks permit easy access to all mechanical components.

Technical Specifications:

Model:	E1300
Product Code:	B230297
