

The Rug Boss UV5 is a vastly improved version of its predecessor, the model UV3. Several state-of-the-art design features make this 15-inch, dual motor vacuum much easier to operate and service. Powerful and built to last, the UV5 offers deep, one pass cleaning on both carpet and hard floor surfaces with less operator fatigue. An engineered thermoplastic body and polycarbonate handle offers reduced weight, yet the durability to withstand heavy daily use.

Features:

- Conveniently located 3-position power switch for easy transitioning between carpet and hard floor surfaces.
- Low profile (4") power head allows the vacuum to hug the floor and to reach under and around furniture.
- Floating head automatically adjusts to varying surface heights.
- Electronic sensors alert the user to an airflow restriction or a jammed brush roll.
- Ergonomically designed handle with soft molded grip reduces operator fatigue.

Technical Specifications:

Model:	UV5
Product Code:	B160569
Amps:	11
Staticlift:	72 inches
CFM:	96
Noise Level:	77 decibels
Bag Capacity	2.5 quart
Drive Belt:	Geared non-slip
Shipping Weight:	18 lbs.
Warranty:	1 year

Accessories:

Paper Bag	B700096
Replacement Motor Intake Filter	B160552
Replacement Exhaust Filter	B160560
Replacement Exhaust Filter Cover	B160561
Drive Belt	B160564
Optional Tool Kit	B703614

Optional Tool Kit

UV5

RUG BOSS

D U A L M O T O R

Switch

Moved to top of the handle for easier access.

Lightweight Handle

Polycarbonate handle with soft molded ergonomic grip offers reduced operator fatigue and abrasion to the hands.

Strain Relief

Easily serviced by removing one screw.

Bag Cover Button

Convenient, secured latch.

Bag Lock Out Switch

Easily serviced by removing one screw.

Exhaust Filter with Cover

Improved filter efficiency and noise reduction. Easily replaced in the field.

Electronic Performance Sensors

Alerts the user to an airflow restriction or a jammed brush roll.
