Sold as is no warranty

Priced low to sell fast!

Dimensions 42.5" Wide . . 63" Long . . 50" Tall

History of machine;

Purchased in 2008 and owner only used for less than 6 months part time. They were performing a lot of water extractions this machine does not have a clutch on the pump and exhaust diverter so sold this machine to the second customer.

2nd customer owned for 2 years and used this machine 1 time.

Under 200 hours total time, and in great shape.

Priced to sell, please do not waist our time trying to send us a low ball offer on this machine. Machine today sells for \$19,999.

Tested at Steambrite and it does start and run fine!
