RHG T-12HY-LT Tucker Water Fed Brush 11", Dual Trim - Boar & Nylon Bristle Hybrid - 2 Pencil Jets
11in x 3in

Manufacturer: RHG Reach Higher Ground

Tucker Water Fed Brush 11", Dual Trim - Boar & Nylon Bristle Hybrid - 2 Pencil
Jets 11in x 3in

Description

ALL STANDARD BRUSHES NOW INCLUDE THE LOCT SYSTEM

Our dual trim, hybrid water fed brushes are the ultimate glass cleaning brush for solar panel and window cleaning businesses. This hybrid, dual trim brush has bristles that are longer on the outer edge of the brush, allowing the operator to splay the bristles into corners and sides of the glass. The shorter, inner bristles remain upright and allow the tip of the bristle fiber to continue scrubbing directly on inner surface of the glass.

This brush comes with 2 individually plumbed pencil jets, which help direct a high-pressure stream of water that assists the brush operator by blasting away stubborn dirt.

Brush may come in red or black depending on availability.

Details:
