RHG T-18ALPHA-HB-SOLAR Tucker Solar Brush 18", Alpha Honey Badger XL - Rinse Bar and Swivel Neck XL 17in x 3in

Manufacturer: RHG Reach Higher Ground

Tucker Brush 18", Alpha Honey Badger XL - Rinse Bar and Swivel Neck XL 17in x 3in

Description

Specifically designed for Solar Panel Cleaning.

The Tucker® Alpha SOLAR range of brushes are the latest in a line of innovated products from Tucker®.

Developed with the assistance of solar panel cleaning professionals. The Alpha Solar-18 is a heavy weighted brush designed to apply downward pressure onto the solar panels to aid in cleaning heavily soiled surfaces.

Unlike most other adapted window cleaning brushes sold to solar panel cleaners, this brush is designed to be used specifically on solar panels.

Features one full length rinse bar that extends the entire width of the brush, and comes with the quick release swivel that is designed to fit the Tucker #1 clamps. Comes with the Tucker® built in swivel feature for easy side to side action.

Again - this is not a window cleaning brush that has been rebranded for solar panel cleaning - this is a brush specifically designed for solar panel cleaning and as such you will find the bristles are longer and fuller than any window cleaning brush on the market today.

Learn more about this new brush in the video below!
