RHG 12025-V2 Tucker Booster Pump System - 110v Standalone Unit with FREIGHT INCLUDED

Manufacturer: RHG Reach Higher Ground

Tucker Booster Pump System - 110v Standalone Unit with FREE SHIPPING

Description

Tucker® water fed pole electric boost pump system. This electric booster system will provide you with 110 PSI and multiple gallons per minute out of your water system. This allows you to work well above 40' as well as run multiple operators off of just one system.

System includes a simple inlet female garden hose fitting and a male garden hose outlet fitting. On / off switch, regulator, and GFCI plug all included as well.

Connect the water supply to the inlet of the pump and the inlet of your pure water system to the outlet of the pump. This will dramatically increase performance.

Specs:

37.6 lbs, 19x19x19
