Phoenix 4045100-02, DryMAX XL Pro, Blue Large Rolling Dehumidifier, DMXL Pro

This listing for the Blue model. For Red see 4045100-01

Description

The Phoenix DryMAX XL Pro is the ultimate solution for anyone who's struggled with the hassle of moving horizontal dehumidifiers up and down stairs. With a unique two-position handle, the unit can easily be transported on flat ground or up and down stairs, making it even more convenient than upright dehumidifiers. Plus, it's compatible with our AirMAX, AirMAX BLE, and Focus II air movers, so you can securely transport all of your equipment with ease. And with onboard USB power for remote monitoring, you can keep an eye on everything from anywhere, eliminating the need for asset tracking beacons.

Two Position Handle:

The unit features a unique two-position handle that can be adjusted to a 42-degree position for flat ground maneuvering, and a 50-degree position to make it even easier to transport the unit up and down stairs than upright dehumidifiers.

Dolly:

The extended handle can be used like a dolly and our AirMAX, AirMAX BLE, and Focus II air movers can be securely transported with the DryMAX XL Pro as they interlock with the top of the unit.

Ducting:

Featuring a compatible 14" lay-flat ducting connection, the DryMAX XL Pro enhances the versatility of your restoration setup, providing a reliable solution for directing dry air to specific areas.

12" Wheels:

Equipped with substantial 12" wheels, the DryMAX XL Pro is designed to effortlessly traverse various surfaces, ensuring smooth movement and stability during operation.
