Phoenix 4037724, Filter 9in x 11in x 1in, Merv 13, Case of 12, Air Scrubbers

Manufacturer: Phoenix

Phoenix 4037724, Filter 9in x 11in x 1in, Merv 13, Case of 12, Air Scrubbers
Description

The Phoenix 4037724 is a case of twelve high-efficiency pleated air filters designed for professional restoration and remediation equipment. Each 9x11x1 filter is rated MERV 13 for superior particulate removal, ensuring your Phoenix air scrubbers maintain optimal filtration performance and meet strict air quality standards on every job site.

Features

- MERV 13 rating provides high-efficiency particulate removal for demanding applications
- Pleated design maximizes surface area for superior airflow and filtration capacity
- Case of 12 filters ensures adequate supply for regular filter changes and maintenance schedules
- 9x11x1 dimensions designed specifically for Phoenix restoration equipment
- Compatible with Phoenix air scrubbers requiring enhanced filtration performance
- Helps maintain strict air quality standards for mold remediation and restoration work

Additional Information

Compatible with Phoenix air scrubbers and negative air machines

Designed for equipment requiring 9x11x1 filter dimensions

Part Number: 4037724

Quantity: Case of 12 filters
