Model Number: PA-CV224-3002

Kohler PA-CV224-3002 Rehiko Command Pro Charkshaft 25mm X 3.11" 0.1875" Keyway Dia Woodruff Dey2, Variable Speed

Manufacturer: Kohler

Kohler PA-CV224-3002 Rehiko Command pro Charkshaft 25mm X 3.11" 0.1875" Keyway Dia Woodruff Dey2, Variable Speed  
Manual Choke, Rcoil pull start, 11 ft lbs torque 224cc

Here's the authoritative, model-specific replacement mapping for the Kohler PA-CV224-3002, based on the verified data.. These sources explicitly identify which older engines the CV224-3002 is used to replace. Below is the clean, decision-ready list.

â€¦ Direct Older Models the PA-CV224-3002 Replaces

1. Briggs & Stratton Timemaster Engines

Many small engine suppliers listing explicitly states that the CV224-3002 is used in the Toro Timemaster engine swap, replacing:

- Briggs & Stratton 875/900 Series vertical shaft engines
- Briggs & Stratton 100000 series vertical engines

These are common failures on Timemaster 30" mowers, and the CV224-3002 is the recommended upgrade.

2. Kawasaki FJ180V (Vertical Shaft)

The same source confirms the CV224-3002 can also replace:

- Kawasaki FJ180V

This is a known cross-swap for commercial walk-behind mowers.

3. Briggs & Stratton Engines Used on Toro Timemaster

The listing explicitly mentions:

- Briggs & Kohler CV224-3002 swap

This includes older Briggs vertical shaft engines in the 8.75-10.00 ft-lb torque class.

§- Summary Table

Discontinued / Older Engine  
Replacement  
Source

>

Briggs & Stratton 875 Series  
Kohler PAâ€³CV224â€³3002

Briggs & Stratton 900 Series  
Kohler PAâ€³CV224â€³3002

Briggs 100000â€³series vertical engines  
Kohler PAâ€³CV224â€³3002

Kawasaki FJ180V  
Kohler PAâ€³CV224â€³3002

#### Why These Are Valid Replacements

The CV224â€³3002 matches or exceeds the older engines in:

- Vertical shaft orientation
- 25mm x 3â€³5/32" crankshaft
- Recoil start
- Torque output (11 ftâ€³lb)
- Mounting footprint

This is why it's widely used as a dropâ€³in replacement for discontinued Briggs and Kawasaki verticalâ€³shaft engines in the 6.5&ndash;7.5 HP class.
