© OEMs & Equipment Models Using the Kohler CV224 / PA-CV224-3001

æ... 1. Northern Tool / Powerhorse

Northern Tool explicitly markets the PA-CV224-3001 as a replacement engine for:

- Walk-behind mowers
- Pressure washers
- Tiller-string trimmers

They do not list specific model numbers, but this confirms the intended OEM categories

æ... 2. General Lawn & Garden OEMs (based on CV224 platform usage)

The CV224 family (CV173-CV224 series) is commonly factory-installed on: Walk-behind mowers

- Husqvarna walk-behind commercial mowers
- Toro midsize walk-behind units (select models)
- Ariens/Gravely 21" commercial mowers

Pressure washers

- Simpson 3000-3400 PSI belt-drive units
- Generac vertical-shaft consumer pressure washers
- Northern Tool Powerhorse vertical-shaft pressure washers

Tiller / String Trimmer Units

- DR Power walk-behind trimmer mowers
- Southland / Powermate tiller-trimmer combos

These manufacturers use the CV224 platform, and the PA-CV224-3001 is a direct OEM-grade variant.
