Model Number: 3204MG1L3CV2WA

Tuthill 3204MG1L3CV2WA 4 week build time line

Manufacturer: Tuthill

The model Tuthill 3204MG1L3CV2WA is a very specific configuration within the 3200 series rotary positive displacement blowers, and images for this exact variant are rarely published. The photo above show the correct family (Tuthill/MD Pneumatics 3200 series), including 3204 series housings, mounting patterns, and port geometry, which match what your 3204MG1L3CV2WA will look like.

- Blue MD Pneumatics/Tuthill housing with the standard 3200 series bolt pattern.

- Side inlet / top discharge orientation typical of 3204 units.
- Gear cover and drive end bearing housing consistent with the MG1L3CV2WA configuration.
- Mounting feet and shaft orientation identical to the 3204 family.
