Model Number: 80.785

Mosmatic 80.785 Professional FL-AH 30in Surface-Cleaner Double vacuum Air Water Recovery Castors (3x 1/8in NPT F) 5000psi

Manufacturer: Mosmatic Pressure Washing Equip

THE LARGE 30" MODEL WITH SUCTION cleans twice as fast as other tools
The Mosmatic surface cleaner with recycling function is perfectly suited for cleaning large surfaces inside and outside. The dirty water is suctioned, treated by the mobile recycling system and then used again for the same cleaning process. The machine is designed for professional cleaning and long-lasting durability. Two suction pick up ports for larger double suction machines
This tool is also well suited for the or similar dual wand machines.

For use with 8 Gpm or larger pressure washers (7 min)
Only ships on a skid/ pallet and is subject to freight rules

FL-PH Professional Surface Cleaner

No cleaning task is too much for this professional surface cleaner. Clean large areas like gas stations, parking lots, airport hangars and school yards. Industrial strength insures longevity.

The series features four 4" stainless steel, rubber treaded castors, a reinforced 21"/30" stainless steel deck and a specially engineered high rpm swivel which guarantees long lasting operation under tough conditions.

RECYCLING FUNCTION

The used water including the residue is suctioned through the double-walled housing. Using a recycling system, the water can be recovered. The process is eco-friendly because the water that has already been used during cleaning can be used again.

HEIGHT ADJUSTABLE HOUSING

Different floor textures require height-adjustable housing. Four adjustable screws are used to adjust the housing to the floor. The suction power is also significantly improved by adjusting the housing.

HIGH QUALITY SWIVEL

The centerpieces of a Mosmatic Surface Cleaner is it's swivel. It is reinforced with self lubricating, stainless steel ball bearings with a carbide gasket system. They are specially designed for high revolutions ensuring long lasting durability.

>

PRE-ASSEMBLED

The surface cleaner is delivered almost completely pre-assembled. After opening the carton, the fork just has to be assembled with the housing, high-pressure pistols and hose according to the instructions enclosed. The surface cleaner is then immediately ready for operation.

POLISHED STAINLESS STEEL (INOX)

A Robust and an optically elegant design are the priorities Mosmatic sets for its products. There is no question of using anything but polished stainless steel (INOX) for all of our products.

FORK SUPPORT

If the surface cleaner is not in use, the fork support prevents the fork from coming into contact with the floor.

3 jet ROTOR ARM

The turbo rotary arm must withstand high revolutions, so a precision robot takes over the necessary welding tasks. The rotary arm is also counterbalanced and precisely equilibrated, which prevents dangerous vibrations.

INOX CASTORS

The surface cleaner can be manoeuvred easily and quickly, saving you time and energy.

SPLASH PROTECTION

The brush ring prevents splashing and injuries from loose pebbles. It is soft and elastic but extremely effective thanks to the thickness of the bristles.

>

RELAX-ACTION FUNCTION

Ease of use and fatigue-protection thanks to a high-pressure pistol with ergonomic relax-action function.

FL-PH 750

Part No. 80.785

Height adjustable Surface Cleaner with Two Air Recovery Ports give you increased water lift capacity when coupled with both a stronger wet/ dry vacuum and a more powerful pressure washer. This unit gives you enhanced productivity due to its size.

Features:

Minimum Requirements: 2,000 PSI at 3 GPM

Maximum Requirements: 5,000 PSI at 12.0 GPM, 250°F

Accepts two " Vacuum Hose

Color: Stainless Steel

Dual Deck Construction

6 Months Warranty

Dual Vacuum Ports

Two Port Caps Included If Not Using with Vacuum

includes gun+nozzles

Weight: 52 lbs

Requires minimum 400 CFM Vacuum

Please note the Mosmatic tools do not come with any quick disconnects (QD) to hook the spray gun to the pressure washer or tile cleaning machine machine. The gun is threaded with 3/8" Female International Pipe (FIP) connection. Please add the correct pressure washing QD and/or carpet cleaning QD to your order.

- Shipping 55 lbs 31" X 31" X 10"H

3 nozzle 1503's 1/8meg are standard jets for this tool.
