CTI Pros Choice 1130C, Ding-Away Tan, Case of 12 QT Bottles, Carpet Brightener

Manufacturer: ProsChoice

CTI Pros Choice 1130C, Ding-Away Tan, Case of 12 QT Bottles, Carpet Brightener
Description

Traffic Lane Tan is an uncorrectable condition that often causes carpet to "ugly out" long before it is "worn out". Caused by fiber abrasion and distortion, light is not reflected from the high traffic areas in the same way it is reflected from the other areas. This results in what appears to be soiled areas even though the carpet has been thoroughly cleaned.

Ding-Away Reflective Enhancements are liquid sprays that adhere to and modify the reflective properties of the damaged fibers. Carpets that have been declared "un-cleanable" and that "must be replaced" can now be restored to serviceable condition.

This condition is frequently encountered in rental properties that are subjected to heavy wear and insufficient daily maintenance. CTI Ding-Away can save this carpet and make you a king in your customer's eyes. These liquid sprays that adhere to and modify the reflective properties of the damaged fibers.

Specifications

Appearance:	Opaque Liquid
Odor:	Odorless
PH	7
Solubility in water:	Soluble
Flammability:	NonFlammable
Composition:	1 to 10% Acrylic Polymer Blend, 1 to 10% Opacifier Blend

Video

Directions

This is a ready to use multi-phase product. Shake the bottle very well to evenly distribute all phases before using.

Use a trigger sprayer to mist the product evenly and conservatively onto the grayed areas and blend into the fibers with a carpet groomer. Begin with a light application and increase the application as needed. The product can be removed by bonnet or hot water extraction while it is wet. However once it dries it becomes more permanent.

Safety Cautions

Keep out of reach of children

Prior to using this or any cleaning product, make sure employees read and understand the hazard information found on the product label and Material safety data sheet. (MSDS). The label and MSDS will also provide information on handling precautions, protective equipment and first aid instructions which might be appropriate for this product.
