Kill Odor Oxcelerate

SKU: KOOXCS

Product Description

Powder formula uses oxygen to eliminate pet odors and stains – tackles pigment stains, too.

Product Specifications

• Form: Powder

• SKU Quantity: Case of four 6.5 lb. / 2.95 kg jars

• Unit Size: 6.5 lb. / 2.95 kg jar

1) Mix 2 oz. (60 mL) in 1 gal. (3.8L) of hot water. Stir until completely dissolved.

2) Pour solution onto stained area.

3) Agitate with pile brush.

4) Allow 5-10 minutes dwell time.

5) Flush and extract using a subsurface water extraction tool.

6) Clean and extract all treated areas.

7) Install high-velocity Dri-Eaz airmovers to expedite drying

Chemspec C-KOOXCS Kill Odor Oxcelerate (Powder) (4x6.5LBS Case) Sapphire Scientific 76-180

Attacks and removes even the toughest stains and odors

Oxcelerate uses an oxygen bleach formulation to power out residual odors and stains. Highly effective on pet urine, wine, algae and many other substances. Works where prior treatments have failed. Can also be used as part of Sapphire's Hard Surface Cleaning System to remove stubborn stains from tile, grout lines, concrete and other hard surfaces.

Oxcelerate contains a variety of water softening agents, pH buffers and oxygen bleach. Comes in an economical powder form that dissolves into water quickly.

>
