Model Number: H2KMTF

Abatement Technologies H2KMTF HEPA Negative Air Scrubber Machine 2sp 2000cfm 230v 50hz Export Unit

Manufacturer: Abatement Technologies

Abatement Technologies H2KMTF HEPA Negative Air Machine 230 volts 50 hz

HEPA-AIRE Model H2KM and Deluxe Model H2KMA Negative Air Machines

HEPA-AIRE H2KM Negative Air Machine

The powerful HEPA-AIRE model H2KM and deluxe model H2KMA Negative Air Machines from Abatement Technologies are designed for the contractor who wants the very best in performance, reliability and quality. The difference between the two units is that the H2KM is equipped with a visual "change filter" indicator lamp, while the H2KMA deluxe model adds a large 5" diameter differential pressure gauge and an audio "change filter" alarm.

Features of the HEPA-AIRE Model H2KM and H2KMA include:

- Two Operating Speeds: 2,000 CFM (High) & 1,300 CFM (Low)
- Weight: 124 Pounds Including Filters
- Fast "No Tools" Pre-filter Changes
- Standard 6"-Deep 99.97% Efficiency HEPA Filter Individually Tested and Certified at 2,000 CFM Airflow
- Also Accepts 12"-Deep Replacement 99.97% Efficiency HEPA Filter
- High-Performance Motor & Blower
- Convenient Back Panel-Mounted Controls
- Two Fixed & Two Locking "Swivel Casters
- Attached Exhaust Collar for 12" Flex Duct Molded Inlet Manifold for 12" Flex Duct (Not included)

HEPA-AIRE H2KMA Negative Air Machine

Two export models, the H2MTF and H2MATF, are available for countries with 230-volt/50 hertz power supplies.

The H2KMTF "contractors" model is designed to provide the budget-conscious user with a more basic alternative to the full-feature H2000A. It delivers the same superior airflow, but with more economical construction and components, and fewer "bells and whistles".

The H2KMTF is a multi-use air filtration machine, equipped with a pre-filter and a HEPA filter that are capable of filtering many airborne contaminants. An optional carbon pre-filter for capturing low concentrations of odors, vapors, gases, and volatile organic compounds, collectively known as OVG, is also available.

HEPA-AIRE® H2000 Negative Air Machine,
1.75 hp, 2-speed model with metal cabinet, and visual alarms.
With: 1" ring panel filter (H2003) and final HEPA filter (H242406-99.)
Features:

- Galvanized steel cabinetry
- 2-speed motor
- Visual filter change indicator lamp
- 2 fixed and 2 locking swivel casters
- Internally protected, 99.97% HEPA filter
- 230 volts 50 hz

Benefits:

- Airflow independently tested and certified at over 2,000 cfm

Specs:

Product Type
HEPA-AIRE® Negative Air Machine

Size Description
35 1/8" x 19 1/8" x 30 5/8"

Includes Hepa filter H242406-99 (optional replacement \$175)
H2002-12 Merve 8 24" X 24" X 2" Prefilter case of 6 \$84.00 (actual filter size is 23-3/8" X 23-3/8" X 1-7/8")

Note Unit does also accommodate 12" Hepa filters for longer life and improved air
