Model Number: 20130628

Clean Storm 20130628 Restaurant Carpet Cleaning Machine Bundle Goliath 27gal 8Stage Vacs
1500psi Pressure Washer Recovery

Manufacturer: Clean Storm

Whether you own a restaurant or want to clean restaurants, this starter package has what you need to clean the carpet, tile, bathrooms, sidewalks, kitchen, etc... This is not your typical carpet cleaning or tile cleaning or upholstery cleaning machine.

More vacuum means it can run longer hoses and dry the carpet and upholstery faster and the ability to clean 20% faster with 14" wide tools.

Set up in one place and clean all surfaces. No need to relocate your equipment from room to room.

More pressure at 1500 psi means you can clean tile 20% faster than other systems that only offer 1200 psi.

More tools for more surfaces inside and out. From the parking lot to touchless bathroom cleaning.

All electric system can stay lock up inside the building for high security.

Having professional cleaning equipment on site can save thousands of dollars a year on cleaning services and make available immediate response to cleaning needs such as wet carpet, vomit cleaning,...

Optional air duct cleaning and vent-a-hood cleaning tools.

-DriStorm Goliath Flood Pumper 20gal Four 2 Stage Vacs and
Pressure Washer Recovery 120v with Lint Filtration
Includes two 50 ft 12-3 power cord.
AC10 hose mount lint filter

>

BE Pressure Supply: Power Ease 2 Hp 1500 psi Pressure Washer and
Tile Cleaning Pump With Cord, Switch on Cart (Free Shipping) P152

Clean upholstery at 450 psi
clean carpets at 500 psi
cleaning walls and counter-tops at 900 psi
clean sidewalks, tile, cement, pressure wash at 1500 psi, with or
without vacuum recovery

Shazaam: Pressure Washer to Carpet cleaning Connection QD

used to convert pressure washing coupler to carpet and tile cleaning
connection

>

Clean Storm Auto Fill Hose 6 ft By 1/2 Inch ID with 90 degree Fitting
for Hot water Garden Hose

(2) two of these hoses in this set.
Use one to connection your pressure washer to the hot water sink

.Clean Storm Hose Set - 115 ft (Dual 50 ft 2 in + 15 ft of 1.5"ID
Vacuum & 1/4 in 3000 psi Solution) with Connections and QD's

115 ft will clean most places but you can purchase up to 100 ft more if
needed.

>

Ball Valve: 1/4in - Male X Female 1000 psi Chrome Plated

3 units in this package (one for each pressure hose)

Allows the operator to turn off the water pressure at the end of the solution hose to change tools and to use the injection sprayer for prespray work.

Cuff: 2in Thread X 2.0in Slip - Standard 2in Hose cuff

two extra hose cuffs in this package used to hook up the AC10 hose mount lint filter.

Shazaam: Kryptonium - 1 Gallon High pH Degreaser

Mix of little of the degreaser with the EZ Gold for a great one, two punch on grease!

>

Just prespray it down and rinse it off.

Shazaam: EZ Super Gold Premium Powder Asgard Enhanced 6# Jar

One gallon powder jar is super concentrated.

One oz of power mixed with one ounce of Kryptonium mixed with one
gallon
o r similar

Shazaam: Dry Cleaning Solution - 1 Gallon Dry Cleaner

Use to remove gum, wax, tar, shoe polish from carpet and fabric
or similar

>

Westpak 14in Carpet Cleaning Wand Starter Package 1.5in Pipe 4 Jet
2 Bend Low Profile W/ Splash Guard

with a 14" wide wand clean 20% than 12" wide tools used by other
machines.

jug AS08P Hydro Force: Injection Sprayer Plus High Pressure with blow molded

Prespray carpets and tile 10 times faster than a pump up sprayer.

>

5000 psi Pressure Gauge with Pressure Washing QD Fits all
NorthStar, Landa, Shark, SprayMart Pressure Washers

Snap into the pressure washer to adjust

PMF: Easy Grip Tools 4 1/2in Internal Spray Upholstery Cleaning Tool

- Add-ons Install H58 Filter Next to QD
- Quick Disconnect Needed .Male Brass (Default)

PMF Crevice, 56 Inch Long Tool, Booted/Easy Glide Grout and Tile
Wand, Internal Spray, 3000psi Top Mounted HD Valve

- Quick Disconnect Needed .Male Brass (Default)

Used on cleaning both tile and carpet corners without bending over
Clean carpet corners at 500 psi
clean tile corners at 1500 psi

>

Mosmatic: 12" Tile and Grout Spinner Wand FL-AER 300 With Vacuum Air Recovery Pick up 4000 psi 78.292

Pressure wash inside and out and pick up the dirty water at the same time.

Perfect for all your flat work surfaces, kitchens, bathrooms and sidewalks...

The Industries Strongest Electric Water Extraction Machine!

Tank Size: 20 gallon

Body Construction: Fiberglass box for durability,

Vacuum Motors: Four 2 stage vacuums (8 stages total will operate over 200 ft of 2" vacuum hose!) Vacuum motors are configured: each pair is in series and then both pairs are in parallel for the best of both worlds of high cfm and high inches of lift.

Automation: 30 GPM STAINLESS STEEL sump pump with water level sensor (machines automatically dumps the dirty water as you clean for non stop production)

Draws only 4 amps.

Factory Installed Clean Storm 30 GPM Stainless Steel Automatic Dump Drain
Dirty Water Discharge Pump Out 12499 Mytee C384 12499

Features:

- Dual ball float/standpipe,
- Clear dome lid on slotted hinged,
- Dual 50 ft. 12-3 power cords,
- Circuit locator,
- 12" rear wheels and swivel casters in the front.
- Front mounted GFI w/ waterproof cover.
- Built in Auto Defoamer with adjustment knob.
- Dual waste water discharge - Garden hose for cleans and 1-1/2" dump hose for floods (your choice)
 - Machine will operate on either one or two power cords (see below).
 - Made in the USA

Technical Specification:

- Primary cord (20 amp) runs (2) vac motors in air series with ball float shutoff and sump pump. If a secondary circuit is not available, machine would perform on this cord. Wired with an in-line GFI and cooling fan.
 - Secondary circuit (15 amp) runs the (2) other vac motor in air series with a ball float shutoff and check valve.
 - 2" vacuum intake.
 - Hose mount Stainless steel screen lint catch to protect your auto dump pump.
 - Garden hose camlock adapter for carpet and tile cleaning
 - 1-1/2" cam lock adapter for flood restoration (seen in photo below)
 - (5) Green lighted splash proof rocker switches.
 - Blue tank/Grey base
 - 170" of Lift (normally dual 2 stage in series would only achieve 155" of lift but these MaxVac vacuum motor are actually doing 170" in series! This is one of the

>

reasons we chose this set up. These are not inflated numbers!)

- 42,500 vacuum units (maximum 170 inches of lift X maximum 250 CFM) make this one of the strongest electric machines on the market
- Gallon of liquid defoamer can be set on top of extractor on jobs where you need to cut some suds. (auto dump systems only dump water and not bubbles)
- Includes hose mount lint filter.

Dealer Provided Hydro-Force: Truckmount Carpet Cleaning Lint Filter AC10 HydroFilter

Factory Installed Valterra PX10: Gate Valve 1.5in Replacement Dump Valve H225 Drain Valve

P152EC is the perfect pressure washing pump for home use and professional tile and grout cleaning.

Pump is designed to handle hot water up to 140 degrees.

Adjustable pressure regulator.

Built in garden hose filter.

25 ft 4000 psi 3/8" ID pressure hose

Lance with assist handle and 4 quick change nozzles

Build in soap injector only works with large soap injector nozzle attached (low pressure spraying). (included)

Amp draw is 10 amps, + 1 amp for each 200 psi you ask it to push the water.

>

For example 1000 psi is 15 amps and 1500 psi is 17.5 amps

Pressure washer use Weight 100 lbs

Description

FEATURES

Baldor Electric 2 HP Motor

Comet Triplex Pump

2.0 GPM 1500 PSI

Cords, plugs and switch included

UPC 77897104868 (subject to change)

Please note a 20 amp breaker is needed to clean at 1500 psi. If you only have 15 amp outlet, please turn pressure washer down to below 1100 psi.

>

Quad 2 Stage Max Vac Vacuum motors are mounted vertical for longer bearing life.

Unit Measurements:

- Handle height is 39". Machine dimensions" 41" H x 24" W x 30" L
- Weight (assembled) = 86 lbs. w/out cords.

Goliath Advantages:

1. 27 gallon recovery tank
2. Auto defoamer needle valve
3. 2" vac port will run either 2" or 1-1/2" vacuum hose
4. The highest lift and highest CFM extractor on the market. Nothing comes close. This machine is impressive when it comes to suction. This machine will run longer hose lengths and dry carpet better than any other electric machine that is operating on two power cords.
5. Will operate on one 15 amp power cord, will operate on two 7 amp power cords, will operate on two 15 amp power cords, will operate on two 20 amp power cords. Just turn off features in applications where you have less power available.
6. Optional Stainless steel dump valve is another industry first. You will not be able to brake it or clog it or wear it out.
7. Dual port water pump out discharge. Choose between dumping out a garden hose or out a 1-1/2" vacuum hose, your choice.
8. Switch plate cover will keep your water resistant switch covers in place. Unlike some other brands the clear water protection cover can fall off once the machine gets old or if it gets knocked around.
9. Now available with an optional internal 500 psi PumpTec pump in it to use as a more basic carpet cleaning machine.

Owner's Manual

These results were achieved with an open vacuum tank

POWERFUL 30GPM AUTO DUMP

Auto Defoamer with adjustment knob

QUAD TWO-STAGE VACUUM MOTORS IN SERIES/PARALLEL
AS PER MANUFACTURERS RECOMMENDATION, MOTORS ARE MOUNTED IN A
WAY THE BALANCES THE VACUUM (lift) AND THE VOLUME (cfm), BY
MOUNTING THE VACS IN SERIES PAIRS THEN THE PAIRS ARE MOUNTED IN
PARRALLEL. THIS BALANCES THE LIFT AND CFM, GIVING BETTER
PERFORMANCE THAN HAVING ALL 4 MOTORS IN SERIES (high lift but nominal
cfm) OR ALL 4 IN TANDEM (plenty cfm but wimpy vacuum). SO FAR ONLY
STEAMBRITE MFG GIVES YOU THIS SUPERIOR DELIVERY SYSTEM FOR 4 VAC
MOTORS.

MACHINE ONLY!! For cost w/accessories, see package options!
One Year Warranty Included, Optional add 2 or 4 more years to the warranty!

Clean Storm
SBHS3000

-Clean Storm Hose Set - 50ft (15 Meters) x 2.0in ID Vacuum & 1/4 in
3000 psi Solution with QDs installed

Need more hose, add more hose. The Goliath vacuum system can handle
215 ft with ease!

Optional On Site Permanent Closest Restaurant Installation: Do not confuse this system with central vacuum systems that offer wet cleaning. This system is twice the vacuum power and ten times the water pressure. Use optional 2" ID PVC pipe in the walls for a permanent installation to hide some of the vacuum hose. The vacuum is strong enough to pull the water and air up and over walls or through pipe laid in the foundation. The Goliath vacuum system can be left in a closet to operate and only needs an exhaust fan and two 20 amp 120 volt electric breakers with water sewage drain. The AC10 hose mount filter can either be left in the closet or used in the room that is being cleaned but must be cleaned as needed. If you leave in the closet the operator will not be able to see when it needs to be cleaned and if you leave it up to the operator to relocate you can end up with a worker that cuts corners and fails to set up. Please consider two hose mount vacuum filters. This way you can leave one in the closet and one for the room being cleaned. In a normal installation using the supplied vacuum hose, the hose mount filter is mounted within five feet of the Goliath vacuum system and the operator will have to empty and rinse off after each job (it will be full). Air conditioning and heating system should also be considered in closet to insure longer equipment life. Do not allow to equipment to freeze. Pressure washing pump can also be left as permanent installation. The pump can be removed from the portable dolly and mounted on a shelf (horizontal installation required). You can also consider running pressure hose in wall but this is more challenging because of having to install specialty ball valves and connections at the wall junctions. The use of 'reverse bullnose wall plate' can be used to hang the ball valve handle but please note that some of the water connection will hang out of the wall. We also upgrade the single wire 1/4" hose to double wire 3/8" hose for internal wall use. This type of double wire hose is rated for over 5000 psi and will help ensure the hose will never break or leak in the wall. OR a permanent wall mount hose reel can also be installed in equipment closet. Normally on these reels we install 160 feet of 1/4" non marking hose jacket hose. If you need a longer section of hose you can just add a 50 foot section on the wall. This will give you 210 feet from the equipment closet. To leave

>

the pump as a permanent installation will require another 20 amp 120 volt electrical outlet, hot water garden hose connection and drain. If you need a system to clean more than 210 ft from your equipment closet we have booster vacuum systems for this too.

Optional: 140 Degree F Heat exchanger can be mounted on the Goliath vacuum system exhaust. Hotter water cleans better than cold water. If your supplied building water heating system is under 140 and you would like to boost you water temperature to 140 degrees F we can install a heat exchanger under the Goliath to absorb the heat from the vacuum motors. The nice thing about this heater is that it does not take any electricity to operate and heats the water with free energy. 140 degrees is the maximum in bound water temperature for this pumping system. Please check with your city regulations to see what water temperature you can have leave the sink and if you need this option.

Optional natural gas, diesel, propane, kerosene heating systems available if you want to clean with live steam and more pressure. Naturally these other system will require additional building requirements and employee safety issues that will require additional training. In the current format employees cannot get burned or have water pressure that will cut through the skin.

Question: What if we suck up a toothpick and it gets stuck in the middle of the hose and starts to collect trash and hair and creates some vacuum loss?

Answer: Just suck up some ice cubes and the ice will travel down the hose at over hundred miles per hour and will break the toothpick on impact and does not add to the clog.

Question: Can we use this system as a central vacuum system for everyday dry dirt pick up?

Answer: Yes, but because it is designed for wet pick up you have to choose to either use the optional dry dirt collection bags on the inside of the Goliath vacuum tank or add a dust downer. A dust downer is a spray jet that sprays water into the vacuum hose to turn the dry dirt into mud as it passes through the vacuum hose. With this dust downer system means you are consuming a small amount of water all the time. If you use the dry bag option, this bag must be removed before wet pick up.

Optional

Clean Storm Grout Master Cleaning Tool 300psi - 1200 psi 20190919 Wand

For the first time in history, pressure wash tile and grout with a standard 500 psi portable carpet cleaning machine.

No high pressure pump required.
