Electric Converter 230 volt 14-50P Head to 20 amp 120 volt GFCI Single Gang Receptacle 5-20R - 10130823

Manufacturer: Clean Storm

230 -240 volt to 115 - 120 Volt Converter 14-50P Head to 20 amp 120 volt GFCI Single Gang Receptacle

Used to plug into a stove or oven outlet and allow 115 volt or 120 volt item(s) to plug into it up to 20 amps.

No built in breaker so it is up to you to test the in and outbound voltage and amp draw.

Please do not exceed 16 amp on 20 am rated devices.

Temporary power distribution box

Construction spider box

Note: User assumes all responsibility on use. It is the users responsibility to check the inbound voltage, outbound voltage, and total amp draw to verify these are not going to be overloaded. The user agrees to test the amp draw of any appliance or machine that they plug into these converters to ensure they are not being overloaded.

Meters are cheap and mistakes are expensive. You can purchase a meter at <https://www.steam-brite.com/voltage-meter-multitester-p-6259.html>

User agrees to hold Steam Brite, its employees, and agents harmless in the event of any use of said use of converter. The user agrees to not hold SteamBrite and all employee against any problems that arise out of the use of said converters.

Remember, just because it plugs in does not mean it is OK to use!

Please allow 3 weeks for build time. Non stock.
