EBAC 1024KPUS Kompact Carpet Flood Restoration Dehumidifier

Manufacturer: Ebac

EBAC 1024KPUS Kompact Carpet Flood Restoration Dehumidifier

Application

The EIPL KOMPACT Professional Dehumidifier is the ideal unit for commercial and residential work. Its compact size permits one-man operation, yet it has the capacity to handle several room-size areas at a time. Best of all, it's affordably priced within the budget of most restoration specialists.

Key Design Features

Washable Air filter for easy maintenance, Rugged wheels with shock absorbing semi-pneumatic tires, Collapsible Handle for easy transport, Integral condensate pump capable of 20' vertical lift, Hours Run Meter providing accurate run time measurements, High efficiency rotary compressor, Extra long power cord (16'), Extra long drain hose (25'), EIPL's unique "Hot Gas" defrosting feature which automatically melts away frost buildup providing effective operation at low ambient temperatures, Rugged, epoxy powder-coated steel chassis and housing, Simplicity of installation and operation with a standard 115V plug.

Proven Performance

The EIPL KOMPACT Professional Dehumidifier is a rugged, yet mobile piece of equipment that will operate under extreme conditions and pull large amounts of moisture from the air. Whenever there is a need for fast dependable, energy-efficient drying, EIPL can provide the answer. The high efficiency Rotary compressor ensures the maximum extraction with the lowest running costs.

The Problem

EIPL is a recognized world wide supplier of flood restoration drying equipment. We offer a variety of dehumidifiers and air movers to remove water and assist with drying areas after water damage. Following a flood, whether it is in your basement or office, it's vitally important to restore the damaged area to good order as soon as possible to protect your health from microorganisms, mold and bacteria that may grow and ultimately prevent further damage. Whether it is a flash flood, hurricane, heavy rains or water main break, EIPL has the equipment to handle the harshest environments and assist with proper restoration.
