Hydrotek ANT4C - 4 in 1 Contractor Hydro Twister

Introducing the ANT4C Contractor Hydro Twister®; Surface Cleaner with the output to tackle big cleaning jobs fast. It combines the features of 4 different accessories all into one system that allows you to quickly switch between each feature. Two nozzles rotating at up to 2000 RPM increase cleaning power by more than 20 times faster than the use of a wand alone with better cleaning consistency and less operator fatigue. Hydro Tek's exclusive SIX-SHOOTER gum/spot nozzle blasts stubborn spots or embedded gum with pinpoint accuracy is mounted beneath the deck so that there is no over-spray when removing gum or paint spots. The edging tool allows you to clean the strip right up against pillars, columns, buildings, and walls. The handle can be mounted in multiple fixed or floating positions to fit any user and eliminate operator fatigue. An integrated water broom makes non-stop cleaning convenient by eliminating the need to disconnect and reconnect tools keeping the HydroTek promise of 'Cleans Fast' and constructed from lifetime corrosion resistant stainless steel, heavy duty long life swivel and three permanently lubricated sealed bearings lower maintenance intervals assuring it 'outlasts' the competition. Comes standard 4 nozzles two 1502 / two 1501 1/8" Meg (6 gpm pressure washers recommended)

ANT4C - Contractor Surface Cleaner

Compare to current or past OEM associations:

P-ANT4C

ANT4C

FEATURES:

Use with your existing pressure washer

Up to 4000 psi

Up to 10 gpm

Cold - 250°F

Stainless steel deck and handle

Large 28" deck

ADVANTAGES:

4 tools all in one

1.) Surface Cleaner - Clean up to 20 times faster than with a standard wand without leaving "zebra stripes"

2.) Water Broom - Quickly rinse the area from debris before or after you clean

3.) Gum Spot Nozzle - quickly remove gum and paint spots, located underneath the deck which eliminates overspray

4.) Edge Cleaning nozzle - clean the strip right up against pillars, columns, walls and buildings

Stainless Steel deck and handle will not rust or corrode

Hook up to a hot water pressure washer up to 250°F to clean even faster by cutting through grease and grime

BENEFITS:

Save time – quickly switch between tools with the quick disconnect fitting without having to switch back to a wand

Save money – one accessory does the work of 4 others, and allows for less overhead

Earn more per job - clean faster and with fewer guys on each job
