

Model Number: DV2-25-1/4

Heat Seal DV2, Dryer Vent 25ft Blue Skipper Line SK3, Reverse Blowing Spinning Ball 1/4 in Hose DV2-25-1/4 fittings

Manufacturer: Heat Seal Equipment

Heat Seal Equipment DV2 25ft Blue Skipper Line with SK3 Reverse Blowing Spinning Ball 1/4 in Hose 1/4 fittings

Description

When cleaning dryer vents from the outside of the building, this will clean most vents for you. Blue Skipper line can travel as much as 25ft through 5 elbows and beyond. The best dryer vent tool made.

Blue Skipper Line can only be used with reverse blowing tools
Specification

- 1/4" Air Quick disconnects
- 1/4" Hose
- Sk3 has 6 jets on it, reverse and rotating / spinning
- Use a 12 cfm air compressor to makes it work the best

Care & Maintenance

Dip skipper ball in mineral oil (varsol or paint thinner) and give them a blast of air from a blowgun which cleans the liquid and the dust out of them.

Do this several times to get them really clean.

DO NOT use any solvent that contains oil.

DO NOT lubricate with oil as the film will only attract and hold on to the dirt, where as dry fittings stay cleaner longer.
