Why Choose the U1570S?

The U1570S is designed for tight spaces, auto interiors, upholstery, stairs, RVs, aircraft interiors, and detail cleaning where comfort and control matter. The internal spray design keeps the solution hose protected inside the tool tube, leaving only the jet side of the valve exposed. This gives the operator a cleaner grip area and helps reduce hose snagging during detail work.

Common Applications

- Automotive carpet and upholstery cleaning
- Furniture and fabric extraction
- RV, boat, and aircraft interior cleaning
- Stair edges and tight detail areas
- Truckmount or portable extractor use
