Powr-Flite PF82HF Tools-on-board HEPA vacuum 15 inch HEPA upright vacuum with tools

Commercial Vacuum Cleaners

Powr-Flite offers top quality commercial grade vacuum cleaners in a model for your specific requirements.

When you are vacuuming, it helps to have the right tool for the job. With Powr-Flite's extensive line of commercial grade vacuums, it is easy to match the features you need to the job. Our upright vacuums feature heavy-duty low profile housing and wide furniture guards to protect the unit and surroundings during use. Everyone has a preference when it comes to vacuum bags so we made it easy. Most of our models come in either a Vacucide, treated shake out bag model or with the Enviro-Clean, high filtration paper bag. We also offer a heavy duty dirt cup model for fast, simple and clean waste disposal.

When it is necessary to keep the noise level to a minimum, our two ?tools on board? vacuums feature a clean air filtration system that operates powerfully, yet quietly with the Silent Run System. Our commercial vacuum line is completed with two wide area sweeper models and a convenient back pack vacuum. We know your requirements are varied so we offer models in every price range and with a wide range of features so that you can choose the equipment that best fits your specific requirements.

Tools-On-Board Upright Vacuums

Powr-Flite offers top quality commercial uprights that are tough and durable with a variety of models for your specific needs.
