HydroForce CX-15 inch Soft Surface Cleaning Tool AW115 Spinner Carpet Cleaning Wand Freight Included 0768724760807

Manufacturer: HydroForce

HydroForce CX-15 inch Soft Surface Cleaning Tool AW115 Spinner Carpet Cleaning Wand CX15 1608-2048 Freight Included

CX-15™; Carpet Cleaning Tool  
Rotary Cleaning Tool  
All Angle Cleaning

#### CX-15

The CX-15 rotary cleaner is a crossover tool that bridges the gap between wand cleaning and powered-rotary cleaning.

Water pressures between 400 - 800 PSI power the high-speed spinning action of twin jets to make over 4,000 cleaning passes. Unlike traditional carpet wands, the CX-15 can aggressively clean carpet fibers from multiple directions.

The unique Hydro-Glide glide design at the recovery opening improves water removal and leaves carpets cleaner and dryer than wand or rotary machine cleaning. In addition to providing the benefits of all angle cleaning, the surprisingly light CX-15 can be carried up stairs with ease, and because there's no rotary rocking action common with rotary machines, you don't have to worry about your technicians dinging walls, knocking over china or accidentally scratching wood or stone floors. The CX-15 can be run with either a portable or truckmount to clean residential and commercial carpets.

#### SPECIFICATIONS

- Deck: nylon
- Glide: POM (comparable to Delrin)
- Tubing diameter: 2"
- Swivel: Mosmatic, ceramic
- Weight: 20 lbs.
- H x W x L: 46" x 17" x 19"
- Warranty: 1 year parts and labor on non-wear items, e.g. stainless steel handle and plastic deck. 30 days for wear items, e.g. filtes, seals, glide, hoses, swivel, etc.

#### BETTER CLEANING

>

Tool head traps heat for hotter cleaning, rotary jets clean fibers from all sides, and 4,000 cleaning passes blast dirt away

**FASTER DRYING**

Hydro-Glide and smooth chamber design maximize air flow and velocity

**LIGHT**

Tool is 20 lbs. compared to an 80 lb. electric rotary machine

**AFFORDABLE**

Rotary powered cleaning at half the price

**EASY TO OPERATE**

Clean close to walls and wood floors without having to worry about being called back to fix them

Two spray bars are included with the CX-15: a residential and commercial bar. The residential bar uses jets with a wider fan pattern and is angled more than the commercial bar to permit faster rotation speeds at reduced pressures. The commercial bar uses jets with a narrow fan pattern and is angled so that it can be used with pressures up to 800 PSI to blast clean trashed, oily restaurant carpet.  
Factory Brochure

**NOTE:** Read the Owner's Manual before using the CX-15 so you understand how and when to use the spray bars.

**INCLUDED SPRAY BARS**

- Residential spray bar #NM6022 uses two 11002 jets #B344
- Commercial spray bar #NM6024 uses two 1502 jets #B630

Rules of engagement:

Uses 4 times more water than a traditional wand so you need a pump that can push 2 gallons per minute

Spray bar is spinning away from the carpet so it is estimated that 800 psi is offering a similar impact as a 500 psi pump.

2" vacuum hose connection for more CFM (cubic feet per minute)

Auto fill, automatic drain preferred

More BTU of heat needed. If you have a standard 100,000 BTU truckmount, this wand will eat through all your hot water. Best results are achieved when combined with a fuel burning heating system. Example heats water with propane, diesel, and or kerosene.

Minimum machine cleaning units: 1600

Minimum machine vacuum units: 42,500

Minimum machine BTU heat: 180,000 BTU
