Model Number: SteamCleaningSanAntonio

San Antonio Green Upholstery Mattress Furniture Cleaning per ft in Width

Manufacturer: Steambrite MFG

Professional Upholstery, Mattress, Furniture Cleaning (Green) in San Antonio, TX.

This is beyond normal cleaning. This is two methods of carpet cleaning back to back. The carpet is shampooed and steam cleaned.

Procedure:

Upholstery is pre-inspected, prevacuumed.

All the fabric is not only pre-spotted, but rather the entire material is completely pre-sprayed.

All the material is hand agitated to completely loosen, dissolve and suspend all the soil, spots, stains, and marks. This also provides extra cleaner dwell time.

After the fabric is completely cleaned, it is steam rinsed with hot water extraction cleaning.

The material is post spot cleaned and re-agitated and re-rinsed if any spots remain.

All along the wall we crevice vacuum.

TriPlex Technical Services: Go Clean GREEN Starter pack of Chemicals
(Green Guard / Green Prespray / 2x Rinse / Spot Remover)

Charge:

Charge \$22 per ft in width

\$35 Service Call on orders under \$260, Free Service Call on orders over \$260 (Listed above as Estimated Shipping Cost)

\$130 min charge

How to calculate fee: Example: Length (times)X rate = Cost

Example 10 ft X 10 ft room = \$100 sq ft X \$0.25 = \$25.00

What does this mean?

Question: Will 100% of every spot and stain be removed?

Answer: No, it is possible that you might have a bleach mark, or a dye stain that normal cleaning will not remove.

What you are paying for is the procedure of two complete cleanings with a post spotting service. Usually this removes over 99% of all the soil, dirt, and marks in the carpet. There are times that customer purchase services (stain removal or odor removal) that go beyond the normal cleaning. For example. KoolAid removal may just clean out of the carpet or maybe it will not. If it does not, it usually can be removed with a KoolAir removal service. We would have to clean the carpet first and see if it comes out or not. Sometimes the fabric protection is pretty good and the stains will lift out. Other times the it requires the extra procedure at an extra cost. You would only be charged for the extra procedure if the Showcase cleaning does not remove the mark. You will be quoted on this procedure before we attempt to remove it. Here is a list of marks that usually will not respond to any amount of carpet cleaning but will respond to a stain removal service:

Ink, Organic stains (mustard, coffee, tea, blood, grass, urea), Dye Stains (cough syrup, iodine, Gatorade, or some other colored drink)

Question: Will 100% of all my odors be removed?

Answer: No. To begin with not all odors are even in the carpet. Sometimes they are on the walls, ceiling, foundation, subfloor, or even in the AC ducts. As you see from the optional service list below, these services are examples of what can be done to remove odors from the carpet face fibers or even below into the carpet backing, padding and subfloor.

Question: Does the carpet cleaning clean the backing of the carpet or get the padding under the carpet wet?

Answer: No. I was seeing a lot of carpet cleaning adds from national dry carpet cleaning companies about "don't soak your padding with hot water extraction, use dry cleaning instead." So I figured lets find out what is happening during the cleaning process. We took a piece of your average carpet and cleaned the same piece 7 times with 500 psi steam rinse. Disengaged the carpet, flipped it over and the

>

backing was 100% dry. What does this mean? This means that the cleaning does not go through the carpet at all and if you have odors in the backing the standard cleaning is not going to remove them. This also means that it is impossible to get the pad wet.

Guarantee: We want you to be 100% satisfied with our service. Our goal is to make every customer feel like they received more service than what they paid for. The results we achieve are impressive! We will have you inspect the carpet before we put any equipment away to make sure that the carpet is as clean as both you and I expect. You will also be provided with a 7 day written warranty that after it dries if you have any spots that come back, we will come back and re-spot clean these for you. What we will not do for you is let you have us clean the carpet, then the next day you have a party on it, trash it and then expect a free-re-cleaning. Can you believe I just wrote that? Some people have no class. In the last 30 years nothing surprises me any more...

What we have seen: Once a landlord had us clean a property that the tenant overhauled a car engine in the house. Yes, the summers are hot outside! You could not see the carpet color. He asked me if I thought I could save the carpet. I told him yes, but I have no way of knowing how much grease and oil are under the carpet and in the padding and if any of it wicked back up, he would have to pay to have these areas re-cleaned. Sure enough in about 2 weeks he called back and stated that some oil did wick back. This is an example of how a sub surface cleaning machine needs to be performed (see below).

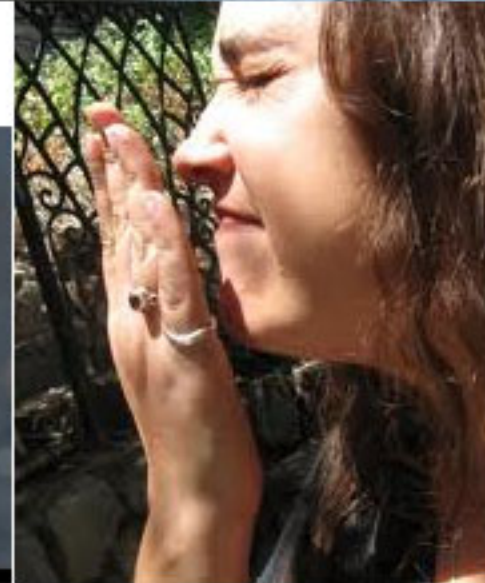

Optional Services:

Many of the services below are available with carpet cleaning at half price.

Do-It-Yourself Rentals

No Bait and Switch! The price is the price for the complete service. Some companies tell you we charge only \$10 a room or something similar to this. Then after you have taken off work and maybe moved some of your furniture, the tech shows up and states "your carpet is too dirty to just steam it. We will need to add this chemical for \$.... more and power scrub it for \$... more, and Now your living and dining room with a hall way went from \$25 to \$250. We provide zero surprises with zero residue with Green equipment and Green chemicals.
