Model Number: US4000

Nikro US4000 HEPA Air Scrubber Industrial 3 stage 5000 cfm dual motor Air duct cleaning Negative Air Machine

Manufacturer: Nikro

Nikro US4000 HEPA Air Scrubber Industrial 3 stage 5000 cfm dual motor Air duct cleaning Negative Air Machine

Replacement Filters:

#860763 - Cube Filter (18" x 24")

#US4000 - The US4000 Dual Motor Air Duct Cleaning System offers high performance in a compact, lightweight design.

These vacuums incorporate two backward incline motor and blower assemblies, which create a powerful combination of vacuum and air flow.

Each system incorporates an exclusive 3-stage filtration system which includes final stage H.E.P.A. (High Efficiency Particulate Air) filter rated at 99.97% @ 0.3 micron particles and larger, DOP tested. This actually meets or exceeds OSHA, EPA and NADCA standards for cleaning the air of toxic and nuisance dust.

Each vacuum is equipped with a filter monitoring gauge which takes the guess work out of filter maintenance.

With the special high efficiency motor design of these units, they can be ran virtually anywhere. they operate on 115 volts and draw only 13.5 amps/ea. motor. Dual power cords

The slim aluminum body design with built in dolly and stair climbing wheels allow the unit to be easily maneuvered; even in the tightest spaces.

Intake collar 12"

No collar on exhaust. Just discharges out the side of the unit.

Includes 12" X 25 ft wire reinforced intake ducting.

Please note that you can only use up to 50 ft of suction side ducting with unit or you will have to consider adding the DriStorm Blast (see below) to push to your intake.

Machine order includes one each of the following filters:

5000 cfm Free Air Duct Cleaning System (115V/60HZ)

>

INCLUDES: Complete Set of Filters, #860147 " Flex Duct, #860111 Duct Mounting Flange, and
