Generac 7172 Guardian Air-Cooled Standby Generator — 10 kW (LP)/ 9 kW (NG), 100 Amp Service-Rated Automatic Transfer Switch

Product Summary

The Generac Guardian Series Air-Cooled Home Standby Generator protects your home automatically 24/7. Runs on natural gas or liquid propane (LP) fuel, and sits outside just like a central air conditioning unit. No refueling, no manual starting and no extension cords are necessary. Delivers power directly to your home's electrical system, backing up your entire home or just the most essential items. Tool-less fuel conversion, internal main circuit breaker and system status LED. Mobile Link and remote monitoring systems available, sold separately. Assembled in U.S.A. with 24/7/365 customer support.

Not intended for use as primary power in place of utility or in life-support applications. Read the owner's manual in its entirety before using this product.

What's Included

- (1) Standby generator
- (1) 200 Amp service-rated automatic transfer switch
- (1) FREE Pre-attached composite mounting pad

Features and Benefits
