Model Number: 62 378 01-S

Kohler 62 378 01-S OH Engine Controls for ECH940 through ECH1000 engines Control panel GTIN

Manufacturer: Kohler

Kohler 62 378 01-S Engine Control Panel / Keyswitch Panel Assembly

Kohler 62 378 01-S is a genuine Kohler engine-mounted control panel / keyswitch panel assembly used on select Kohler Command PRO EFI ECH940 and ECH980 engines. This panel is commonly used when the engine does not already include a factory-installed key switch or control panel.

Important Fitment Note

This listing is for 62 378 01-S, the control panel assembly Kohler lists for ECH940 and ECH980 engines. Kohler's accessory guide separates this part from the similar-looking CH-series control kit:

| Part Number | Description | Kohler Factory Listed Fitment |
|-------------|-------------|-------------------------------|
|-------------|-------------|-------------------------------|

| | | |
|-------------|--|-------------------|
| 62 378 01-S | Panel assembly, key switch, indicator light, harness | ECH940 and ECH980 |
|-------------|--|-------------------|

| | | |
|-------------|----------------------------------|----------------------|
| 62 376 02-S | Engine-mounted control panel kit | CH940, CH980, CH1000 |
|-------------|----------------------------------|----------------------|

Do not assume CH and ECH control panels interchange. CH-series and ECH-series Kohler engines may look similar, but Kohler factory accessory literature lists different control panel kits for these engine families.

Product Details

- Brand: Kohler
- Part Number: 62 378 01-S
- Description: Panel Assembly / Keyswitch Control Panel
- Common Use: Engine-mounted controls for select Kohler Command PRO EFI engines
- Factory Listed Fitment: ECH940 and ECH980
- GTIN / UPC: Not available / N/A

Commonly Used With

- Kohler Command PRO EFI ECH940 engines
- Kohler Command PRO EFI ECH980 engines

>

- Select replacement engine installations requiring a keyswitch panel
- Commercial equipment using compatible Kohler ECH-series EFI engines

Before Ordering

Please verify your exact Kohler engine model and specification number before ordering. Engine control parts should be matched by the engine tag, wiring harness, engine family, and equipment configuration.

- Confirm your engine is an ECH940 or ECH980
- Confirm your engine requires panel assembly 62 378 01-S
- Do not order based on horsepower alone
- Compare your current control panel, plug style, harness, and mounting location
- Contact Kohler or your equipment manufacturer if your engine has a special OEM configuration

Related Control Panel Warning

If you are working on a CH940, CH980, or CH1000 engine, the commonly listed Kohler control kit is typically 62 376 02-S, not 62 378 01-S. This page is intended for the ECH-series EFI engine control panel.

Shipping Notice

Display images are for reference only. Orders are fulfilled by the manufacturer part number ordered. Specifications and packaging may change without notice. Electrical parts and special-order parts should be verified before purchase.
