

Model Number: 320120

MasterBlend Hybrid Pro 45 CRB Dry Carpet and Tile Cleaning 320120 BAC (18 inch brushes) 20 Machine 320120

Manufacturer: MasterBlend

Masterblend: Brush and Clean The Brush and Clean TM4 is a sophisticated twin-cylindrical, counter-rotating carpet brushing (CRB) machine for encapsulation cleaning and absorbent compound Dry Carpet Cleaning system. CRB Machine. The brushes lift and agitate the carpet pile. The machine's design provides maximum flexibility allowing for work in narrow hallways and stair cleaning. This well designed machine offers features that cleaning experts will appreciate. Zero effort to use this machine. It glides over the direst carpets and floors like a hockey puck on ice.

- Engineering: Designed and built for over twenty years by Europe's leading manufacturer of carpet and upholstery dry cleaning systems.
- Ease of Use: A convenient foot lever releases the handle and starts the brushes. Returning the handle to the upright position turns off the brushes and locks the handle. Brushes can be switched out in minutes without tools.
- Mobility: The large wheels on the trolley allow convenient travel in and out of buildings and homes and up and down stairs. Once removed from the trolley, two smaller wheels on the rear dust cover, provide movement between rooms.
- Renovator Technology: The machines have been upgraded with the unique RENOVATOR technology for pre-vacuuming dry soil and post vacuuming the soil-saturated compound.
- Brushes: White brushes for commercial carpets are included with the machine. Other available brushes are stiff brown for hard surface cleaning, grey for residential carpets, and soft black for wool or delicate carpets.

This machine requires very little maintenance. Just wipe down the machine periodically and clean and rotate the brushes occasionally. Brushes are changed without tools.

Complete kit includes white commercial brushes, transportation cart, detachable Renovators, dust covers, and dust brush for cleaning the machine after removing brushes.
