Model Number: DNAPROPRPK  
Abatement Technologies Delmhorst Navigator Pro Moisture Meter  
Manufacturer: Abatement Technologies

Moisture Meter with Advanced Mapping System Specifically Designed for the  
Restoration Professional

The Delmhorst Navigator Pro Moisture Meter with Mapping System integrates a pin and pinless moisture measurements and a thermo-hygrometer into a single state-of-the-art unit. The Navigator Pro can take all required measurements including RH, temperature and moisture content of virtually any material.

In BASIC operation (no job definition), the Navigator Pro utilizes simplified controls by taking measurements in either scan, pin or thermo-hygrometer mode for quick and easy use. For moisture mapping and documentation purposes, the Navigator Pro operates in ENHANCED mode where job definitions and materials tested are set by the user. Data measurement points can be viewed on-screen, recalled from memory or downloaded to a PC using an infrared link and data transfer software.

Restoration Professional

The Delmhorst Navigator Pro Moisture Meter with Mapping System integrates a pin and pinless moisture measurements and a thermo-hygrometer into a single state-of-the-art unit. The Navigator Pro can take all required measurements including RH, temperature and moisture content of virtually any material.

In BASIC operation (no job definition), the Navigator Pro utilizes simplified controls by taking measurements in either scan, pin or thermo-hygrometer mode for quick and easy use. For moisture mapping and documentation purposes, the Navigator Pro operates in ENHANCED mode where job definitions and materials tested are set by the user. Data measurement points can be viewed on-screen, recalled from memory or downloaded to a PC using an infrared link and data transfer software.

Advanced features of the Delmhorst Navigator Pro Moisture Meter include:

- BASIC Operation - User-friendly controls for quick and easy measurements
- ENHANCED Operation - Define up to 5 jobs with unique job ID numbers. Data grouping by specific rooms with up to 32 rooms per job
- Thermo-hygrometer - Fast response time measures temp/RH and calculates GPP/dew point
- Penetrating Pins - Includes two sets of attachable penetrating pins

>

(3/4" & 1-3/32") to test for moisture within wood and sheetrock

- Attachable Electrodes - Includes insulation electrode to detect for moisture deep within insulation
- Rugged Design - Ensures years of reliable use
- Sturdy Plastic Carrying Case - Protects unit when not in use
- Optional Infrared PC Linkage - Download data to a PC with software application

Sales tax is collected for GA and TX unless you have a resale certificate on file that you are going to rent out this equipment.
