Model : SBMExp

-Steambrite MFG: Enterprise Portable Truckmount Extractor

Manufacturer : Steambrite MFG

This is the first extractor that has four 2 stages vacuum motors (8 stages total) that has each pair of vacuum motor in series and then those to sets of pairs mounted in parallel. With eight stages of vacuum, this provides the best vacuum performance with both high CFM and High inches of water lift (12" of mercury). The machine can product 33,000 vacuum units (maximun CFM X Maximum Inches of lift = Vacuum units). You can also operate the vacuum motor pairs independently so if you want to only use only one set of motors because of shortage of electricity. This unit can operate on two, three, or four 120 volt 15 amp power cords or on 220 volt electric drier outlet. Electrical converter is provided as well as three detachable 50 ft 12-3 power cords and one 50 ft 220 volt 10-3 power cord. You can even plug your machine 100 ft away from your electric drier outlet by using the 220 volt power cord first and then run your 12 gauge extension cords the last 50 ft. Whether you want to pressure wash, clean tile floors, water extraction, auto detail engines or interior or just clean carpet and upholstery, or even air duct cleaning - this machine is the most versatile extractor on the market today. The dolly and vacuum system weight 104 lbs, the water pump weighs 65 lbs. These machine are custom made so allow up to 4 weeks for delivery. 6 months, 0% loans with no payments available.

Includes:

- 20 gallon waste tank
