Manufacturer : American Cleaning Systems

System 5000 EFI

This is our new machine!! It is like the System 4100 but with an engine upgrade. It has a 28 HP Fuel-injected engine. All you have to do to turn it on is turn the key-no more choke starting. This is a quieter machine and uses less fuel, so you save in the

Features

Dual Heat Exchangers

The dual heat exchangers use an unique tube and shell design that will efficiently heat water up to 220 degrees F. It is made out of heavy gauge stainless steel that is easily serviceable with no need to replace parts.

Hypro Water Pump

The Hypro water pump is belt driven and easily adjusted. It circulates only cold water through the pump, increasing the life of the water pump. It also has three pistons for less pulsation.

Hypro 230B-L, 1500 PSI, 3 Piston
