

Bazooka Gum Removal Machine/Original Corded

Model : 420AC

Bazooka Gum Removal Machine/Original Corded

Manufacturer : Zapper Products

All four Bazooka gum removal machines let you stand up while you instantly remove spot after spot of ground-in gum from carpets and hard floors. The best in gum removal equipment.

The original gum removal machine includes corded drill and Tigon tubing that allow upright spraying of aerosol spotter/gum remover. When aerosol is triggered the spray travels down tubing inside of Bazooka to trouble spot. Swirling brush is then used to liquify gum/spots.

FEATURES:

- Patented brush-and-spring system works in conjunction with the specially formulated spotter to liquefy the gum, making it virtually disappear.
- No more working on hands and knees to remove gum.
- The Bazooka is designed to operate while you stand completely upright.
- Spring-loaded safety cover eliminates overspray and ensures long-term performance of the brush system.
- Lightweight (7 lbs.) and mobile for quick and easy operation.
- 3 different brushes are interchangeable for different floor surfaces.
- Durable body design. Ball bearings and high-torque electric motor guarantee professional performance for heavy commercial use.
- The Bazooka's easy disassembly ensures quick, low-cost maintenance.

Note: Clean carpet with extractor after using Bazooka on carpeting.

Drills

Corded Gum Zapper: Cummins Brand Drill

Cordless Gum Zapper: 12volt, Ryobi Brand Drill

(The manufacturer reserves the right to substitute drill brands.)
