EnviroBoss™ 6000
The Most Efficient and Effective System in the

Drieaz: Enviro Boss EB6000 Dehumidifier F376

Drying World.

Show tropical, cold, and cool/dry weather who's boss with the versatile EB6000. Unlike any trailer unit on the market today, the EB6000 is also ideal for heating, cooling and air exchange. Its strong effectiveness in a broad range of real-world water damage applications means the unit performs at its best in all climates with quick and easy set-up. No matter what the class of water loss, the EB6000 will tackle any challenge head on.

EnviroBoss® EB6000 Features:

Dries effectively in all climates:

- Drying/cooling in tropical (hot/humid) conditions
- Cooling for hot/dry weather
- Drying/heating for cold conditions
- Heating/air exchange for cold/dry weather

Split-stream dehumidification for the ultimate application versatility

Unrivaled drying at 720 pints/day water removal at AHAM (80°F/60%Rh), and up to 1400 pints/day at 90°F/90%Rh

High velocity airflow with up to 5,400 CFM (using both air streams)

5-ton cooling A/C at 60,000 BTUs

Runs on a generator or a 50-amp circuit (230v)

Easy setup and maintenance

Price : \$21,995.00
