EDIC: Galaxy 5 - 100psi - 1/3Vacs + External Heater

Manufacturer : Edic

COMES STANDARD WITH HEAT!

The Galaxy 5 was designed for remarkable heat and power all housed within an incredibly lightweight and portable package. The exclusive external heater design, with stainless steel heating chamber and heating element, delivers up to 170 degrees on demand. The unit can be operated on a single power cord, which gives it the versatility to be used in a variety of settings. The heater can be removed in about 15 seconds if a repair is necessary, and the stainless steel heating chamber comes with a lifetime guarantee. The Galaxy 5 is an obvious choice for auto detailing and those jobs where a small yet powerful unit makes more sense. It's light enough for anyone to handle and the fold-down handle makes it a snap to transport and store. We've also added an exclusive baffle system for exceptionally quiet operation. The Galaxy 5 automotive unit comes complete with a 15-foot hose assembly and stainless steel auto detailer tool.
