FLOOR MACHINES AND ACCESSORIES

No job is too tough for this rugged series of floor machines from EDIC. With its all-metal construction and steel planetary gear boxes, the Saturn can stand up to the heaviest workloads, yet the ride is surprisingly smooth and quiet. The low speed models are built specifically to handle the stress associated with stripping and scrubbing hard floor surfaces as well as bonnet cleaning and shampooing carpets. Features like the quick and easy handle adjustment, anti-fatigue design, and the exclusive "lockout lever" for safe two-handed start up make this machine operator friendly and a winner in every commercial setting. Available in six different models, there is a perfect low speed Saturn for any size job.

Lifetime on stainless steel brush cover,

3 years on parts and labor

FEATURES

All-metal construction assures durability.

All-steel triple planetary gearbox provides heavy duty yet quiet operation.

Dual-trigger negative pressure switch allows operator to run with either hand.

Turn a 13-inch machine into a 20" or any other combination, by removing just four bolts.
