HEAVY DUTY TWISTER VAC

List: 1795.00

Your Price: 1436.00

The ANTV3 TWISTER VAC is a unique surface cleaner and wash water recovery system that, when combined with the AZV55 Vacuum Filtration System, completes two tasks in one easy step. As a surface cleaner the ANTV3 cleans flatwork fast, with the ability to vacuum up the wash water. It can be connected to either the AZV55 or RZVE1 recycle system for wash water reuse, protecting the environment and conserving water.

The ANTV3 will work with as much as 100' of 2" vacuum hose. Now you can flat surface wash without the worry of wastewater runoff helping meet today's tough storm drain regulations. Suitable for use on greasy factory floors, concrete parking lots, drive thru areas, gas stations and garages. For the best cleaning results, ask your dealer to match your surface cleaner nozzle size to the pressure and flow of your power washer.

TECHNICAL DATA

PRESSURE RATING - Up to 4000psi

FLOW RATING - Up to 5gpm

TEMPERATURE RATING - Up to 200° Fahrenheit

CLEANING PATH - 18 inches

VACUUM SYSTEM - Requires minimum 100CFM and 91" Lift vacuum (or either AZV55 or RZVE1)
