

Octavac Vacuum Booster and Hepa Vacuum

Model : SBM-Octavac

Octavac Vacuum Booster and Hepa Vacuum

Manufacturer : Steambrite MFG

OCTAVAC is 8 machines in one. The most comprehensive janitorial machine on the market.

Used in the eight following ways (optional features may require additional equipment):

Ultra High Performance Dry HEPA Clean Room Vacuum

Wet shop vac pick up HEPA Vacuum

Portable or Truck mounted Carpet, Upholstery, Auto Detail

Steam Cleaning extractor machine with HEPA exhaust. (you can even hook two units together for truckmount extractor use - 400 CFM and 10.7" of Mercury)

Air Duct Cleaning Machine with HEPA filters.

Vacuum booster for you portable or truck-mounted extractor with HEPA filters.

Tile cleaning Machine with washable HEPA filters.

Flood Pumper with washable HEPA filters.

Industrial Canister vacuum cleaner with HEPA filters

Why purchase a different machine for each cleaning task when you can purchase just one?

Made in the USA

All Stainless Steel and Aluminum Construction.

20 gallon vacuum and recovery tank.

Three large riveted lift handles (one top of motor cage and one on each side of the Octavac)

5 Non Marking Swivel Casters

2" vacuum intake port for maximum performance.

Dual - 3 stage 2 peak horse power vacuum motors makes this the strongest wet/dry HEPA vacuum in the world (six stages total vacuum).

This unit will easily operate 75 ft of 1-1/2 ID vacuum hose or 150 ft of 2" ID vacuum hose.

Motor compartment is vented for long life and made of aluminum that disperses heat.

200 CFM with 145" of lift (10.7" of mercury). This is an impressive 29,000 vacuum units (using the maximum CFM X maximum inches of lift formula)

Large 2" Gate Valve is fitted with barbed connector to run your drain water away from your project or can be used to hook any portable or truck-mount to boost the suction power.

Dual 120 volt power supply on separate circuits. Each power cords draws 11 amps each.

Only 57 lbs.

Dimensions: 32 1/2" H X 31" L X 20 1/2" W
Dual Washable HEPA filters are for wet and dry pick up (99.97 @ .3 microns)

HEPA filter:

Octavac Vacuum Booster and Hepa Vacuum

Air Tight Gasket to prevent dust leaks at connection.
High-Efficiency filtration exhaust is excellent for allergy sufferers.
Maintain strong suction even when dirty.
HEPA medium is made from a non-stick surface for easy cleaning.
Moisture Resistant medium won't degrade like paper filters.
Easy Clean up by rinsing filters with running water.
Re-use over and over to save on company overhead.
Dry Pick-Up Pre-filter Bag Shop Vac Model 906-72
2-ply construction offers 95% filtration @ 0.1 micron
Inner liner improves filtration, durability, and capacity of filter bag.
Disposable bag allows for fast, convenient removal of debris from tank.
Improves vacuum efficiency
Traps fine dust in bag.(fine powders, including, drywall dust, cement dust, cold fireplace ashes,...)
Ultra fast bag changes
